AMENDMENT

To the Commissioner for Patents:

In response to an office action mailed May 5, 2004 the applicant hereby amends his application as follows:

Listing of claims:

1. (Cancelled)
2. (twice amended) A peripheral computer enclosure according to claim [10] 20 wherein said peripheral computer enclosure includes a controller card that is connected to said back plane.
3. (twice amended) A peripheral computer enclosure according to claim [10] 20 wherein said peripheral computer enclosure includes a personality board that is connected to said back plane.
4. (original) A peripheral computer enclosure according to claim 2 wherein said controller card can be networked by a side riser card and four peripheral component-interconnect cards and wherein said peripheral component-interconnect cards are selected from a group consisting of computer cards, network cards, rate controller cards and memory cards.
5. (twice amended) A peripheral computer enclosure according to claim [10] 20 wherein a personality board is connected to said back plane with a side riser card that provides
